

Camstar Ingredients LtdTM

Food Service Supply

Camstar Ingredients Ltd recently commissioned a food service packing line at its Eye, Suffolk production facility. This allows the company to supply products in 1kg pails, vac packs and induction heat sealed sapphire jars. This division operates from its own state of the art BRC accredited facility, which is a dedicated manufacturing and packing site and can supply its products in either bulk or foodservice units. The facility is designed to allow for a diverse range of customer specific packaging formats to be utilised as well as long or short production runs.

Food service product range:

- Green peppercorns in brine
- Pink peppercorns
- Pine kernels
- Sunflower seeds
- Pumpkin seeds
- Garlic puree
- Ginger puree
- Ginger and garlic blend
- Red/green thai curry paste
- Red chilli paste
- Green chilli paste
- Harissa paste
- Authentic fresh basil pesto
- Sun/semi dried tomato paste

These products can be supplied in 1.2/2.2ltr sapphire jars (heat sealed foil lid), 1kg white plastic pails with tamper evident lid and handle, 1kg vac packs. We also offer a range of rectangle 'deli ready' tubs. These products can be packed in your company name/brand.

This list is not exhaustive; please contact us for any other products you may be interested in. We have a strong npd team with over 40 years' experience to develop or match current or new products.

Please use one of the following options to contact us for further details, specifications, samples and prices on any of the products listed above.
